Ms Amita Tiwari
Principal

Boarding schools come about from the earlier educational system of Gurukula. We, at Heritage have recreated that environment which is traditional yet contemporary. Each child, during her stay at the school gets ample exposure through various activities and through interaction with leaders in every field, so that she knows the extent of opportunities available to her. Social service, values, environment conservation and equality, among other things are also given equal importance at the school. For us, the education of a child reaches a milestone when she realizes what she is good at and leaves with a clarity on the way ahead and with preparation from the school. We are constantly working on nurturing individual talents as every child is different in her own right.

Structured study time (Prep-1/Prep-2) is a daily habit. Prep takes place in the classrooms and is supervised by academic teachers. The students do self-study in the privacy of their dorm rooms after dinner or early mornings.

REMEDIAL CLASSES

Students who require remedial attention are identified and attend compulsory tuitions from the subject teachers during zero-hour every weekday.

THE STUDY BUDDY

This is an empowering peer teaching module where high achievers volunteer to tutor a peer who requires help in a certain subject. This is a win-win project where both the tutor and the taught benefits.

GREATER SCOPE OF EDUCATION (GSE)

One of the most distinctive modules at Heritage Girls is our effort to go beyond textbooks to take education out of the boundaries of the classrooms.

Monday morning assemblies are dedicated to this endeavor. Students are given topics of current interest & global importance to research and understand a month in advance. The class teacher facilitates the exercise and moderates a group discussion on the topic. The idea is to get everyone thinking and talking, bringing world affairs into the orbit of thought and analysis.

The GSE is an effort to work on the overall holistic development of a girl's intellect, to make her aware of the world around her, to teach her to form opinions, to verbalize her thoughts and to be more receptive to varying viewpoints.

THE LEADERSHIP PROGRAMME

At Heritage Girls School, we go by the premise, "Every Girl is a Leader." The effort is to draw out the inherent leadership traits from within every individual by providing opportunities to showcase them.

Regular public speaking exercises are conducted to instil self-confidence. This also works to rid them of stage fear that cripple speakers the world over. Children are encouraged to voice their opinions, put forth ideas and give presentations. Every child is given a specific responsibility in the public forum to teach her to be accountable.

THE STUDENT COUNCIL

They undergo a structure training program in Leadership methods and get several opportunities to put their learning into practice.

CAREER GUIDANCE & UNIVERSITY APPLICATIONS

Experts and professionals from different work areas are invited from time to time so that the girls are given an insight into the various avenues open to them when it is time to launch out on their own. Representatives of universities both from India and overseas visit to apprise them of opportunities of study around the globe. The school counselor advises the girls on the choice of subjects, tests to be taken and testimonials required by foreign universities.

MR. AVIJIT DUTT (Indian Filmmaker, Actor & Theater Director)

Too kind! It was heartening to see the girls rise to such disciplined heights, as you confided - "Kids always rise to the occasion, don't they?" so very true. The principle behind the education of being able to open minds with manifold experiences is often lost sight of; great to see your girls dive in to discover more. Rarely have I seen promoters who are so sincerely wedded to the dream of the ideals and values of the school. And the land indeed is rich blossoming with such a varied fare of fruits, vegetables and green shade. Grateful to be counted as a longstanding well-wisher of the school.

CHEF VICKY RATNANI Celebrity Chef and Judge National Cooking Competition

The Prelims are hard to judge. Children today are extremely passionate about cooking. Cooking is all about the balance of flavors. A great chef finds the food he loves and puts the flavor together.
